

CP TECHNOLOGIES

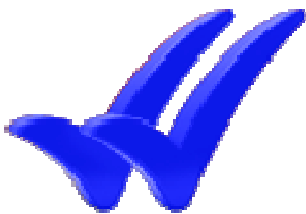

CP Technologies introduces
our Clearlinks brand of Optical Transceivers.

CLEARLINKS™

100% Reliable, Every Time!
CP Tech uses Coderight™ coding equipment to ensure our products are 100% coded right, every time! From Adtran and Cisco to Zyxel and every manufacturer in between, CP Tech has you solution.

Double Tested

100% Compatibility, Guaranteed!

- 100% Application Tested
 - 100% Full OEM Compatibility
 - 100% Lifetime Warranty and Technical Support
 - 100% Double-Test Certified
- Call us for a full list of Manufacturer Compatibilities

CP Tech uses a custom double testing procedure to ensure that all of our products run at or beyond the standards set by the OEM. Our lab technicians hand test our products in two separate testing environments at the production level and coding level. This double testing procedure has become a model for the entire industry.

Compatible with these companies and many others:
