# LC Duplex Clips

## New options at CP TECH

### Easy Polarity Change

CP TECH now offers the option of a “Clear” LC Duplex Clip that can easily allow polarity change in the field. If the LC needs to change polarity they can be flipped with the ease of one snap.

Available in a standard duplex clip with or without the extractor stem or as a UniBoot.

The extractor clip can be used in high density data center locations.

- ✓ Patented design with 1 second time operation to change the LC polarity without twisting of the fiber
- ✓ Particular Red/Black housing design, clear identification with polarity A and B
- ✓ Gray dots and black housing identification up and down
- ✓ 1.6mm cable O.D. improve air circulation, routing and maximize value space
- ✓ Compared with the tradition zip-cord cable, it reduces the number of cables by half and simplifies cable management
